**RE: Citizens Utilities Rural Company, Inc. d/b/a Frontier Citizens Utilities Rural
T-01954B – Calling Features**

Dear Corporation Commissioners and Staff:

Enclosed please find an original and thirteen copies of the tariff filing for Citizens Utilities Rural Company, Inc. d/b/a Frontier Citizens Utilities Rural (Frontier) for review and approval.

The purpose of this filing is to introduce Selective Call Forwarding, Selective Call Acceptance and Multiple Simultaneous Call Forward features.

It is respectfully requested that this tariff become effective on June 15, 2014.

An additional copy of this filing is also enclosed. Please stamp this copy received and return it in the enclosed stamped, self-addressed envelope.

Please return approved stamped tariff sheets to:

Frontier Communications
Linda Saldaña
9260 E. Stockton Blvd.
Elk Grove, CA 95624

Please direct any questions or notifications of action taken on this tariff filing to Kirk Lee at (425) 261-5855.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Kirk Lee".

R. Kirk Lee

Handwritten initials "nr" in black ink.

TELEPHONE SERVICES TARIFF

LOCAL EXCHANGE SERVICES (Continued)

6.24 CUSTOMIZED LOCAL AREA SIGNALING SERVICE (CLASS) (Continued)

6.24.1 (Continued)

i) **Call Waiting/Caller ID (CWID)** provides a visual display of the incoming caller's name or number when Call Waiting is activated on the subscriber's line. This service, therefore, combines and enhances Calling Name Delivery, Calling Number Delivery and Call Waiting. A subscriber who is engaged in a conversation and receives an incoming call hears a special call waiting tone and is provided a visual display of the call waiting party's number and/or name. The subscriber must have a Call Waiting Display Terminal capable of alphanumeric display and subscribe to Call Waiting, as well as Calling Name and/or Call Number Delivery.

j) **Selective Call Rejection** allows a customer to block incoming calls from a maximum of 12 telephone numbers. The customer also can block incoming calls placed from the last calling number even if the number is unknown to the customer. Blocked calls are routed to a recorded announcement which specifies that the called party is not accepting calls.

k) **Selective Call Forwarding** allows a customer to program up to 15 telephone numbers within the LATA to be forwarded automatically to another telephone number. Incoming calls that are on the Selective Call Forwarding list will be forwarded to the predetermined telephone number. Selective Call Forwarding is accessed by dialing "*63" or "1163" from a rotary telephone. After gaining access to the service, the customer can activate or deactivate by dialing an activation/deactivation code as directed by an announcement.

Entries on the Selective Call Forwarding list, as well as the forward-to telephone number, can be changed at any time. This feature is available on a monthly flat rate basis.

l) **Selective Call Acceptance** screens incoming calls and only allows access to those telephone numbers on a customer determined list (up to a maximum of 12 telephone numbers). All others will be directed to a pre-recorded message.

(L) Item k. renumbered and relocated and items 6.24.2 through 6.25 relocated to Sheet No. 98.1.

LOCAL EXCHANGE SERVICES (Continued)

6.24 CUSTOMIZED LOCAL AREA SIGNALING SERVICE (CLASS) (Continued)

6.24.1 (Continued)

m) **Multiple Simultaneous Call Forward** provides a business customer with the capability to specify the number of calling paths that will be forwarded from one subscriber line to another telephone number. The feature is offered where facilities permit and at no time will this service take precedent over the requirement for these facilities to provide a customer with telephone service. Multiple Simultaneous Call Forward is restricted to voice use only. The feature is available only as an enhancement to one or more of the following features: Call Forwarding, Call Forwarding Busy and Call Forward No answer. Multiple Simultaneous Call Forward is limited to ten (10) call forwarding paths per telephone number. It can be used with any of the following services: B1, PBX, Centrex and ISDN BRI.

(N)

(N)

n) **Priority Ring** allows a customer to program up to twelve (12) telephone numbers of selected callers enabling the customer to distinguish certain incoming calls from all others by a distinctive ring tone. Where the technology is available, if a customer also subscribes to Call Waiting, calls from the selected numbers will be distinguished by a special Call Waiting tone.

(T)(L)

6.24.2 Customized Local Area Signaling Service (CLASS) is a group of advanced services offered to residential and business customers.

6.24.3 The service is subject to available facilities and limited to central offices specifically equipped to provide such service. Customized Local Area Signaling Service features are applicable only to local calls placed to/from compatible central offices within the same local calling area offering the service.

6.24.4 Operator assisted calls are designed to override the feature calls for emergency purposes.

6.24.5 Coin phones will not be enabled with CLASS features, just as they are not enabled with Custom Calling Services. They will operate with the Customized Local Area Signaling Service system, however, and interaction with all the features will be permitted.

(L)

(L) Item n and 6.24.2 through 6.25 relocated from Sheet No. 98.
